## REACH and RoHS Compliance Statements

### REACH

Optima Technology Associates, Inc. and Sahasra Electronics support the goals of the REACH (Registration, Evaluation, and Authorization of Chemicals) program, which are consistent with our own vision towards responsible use and handling of chemicals and hazardous substances.

The purpose of this statement is to clarify that all parts used in our manufacturing of electronic assemblies are compliant with REACH legislation and do not contain any of the 181 SVHC (Substances of Very High Concern, REACH SVHC 181, updated 16 January 2018) described by the ECHA (European Chemicals Agency) on 17 December 2014 at levels surpassing the threshold of 0.1% by weight. This certificate is based only on statements or declarations given by manufacturers/suppliers of parts used in these assemblies.

We work actively with our suppliers to ensure continued compliance with REACH legislation and monitoring of the SVHC candidate list for new additions.

We strongly suggest to our customers to perform a 3<sup>rd</sup> party certification study conducted to verify products are REACH compliant. This can be conducted through our company on your behalf. Otherwise, we can not be responsible or liable for any mis-declaration from vendors and accordingly, indemnify our self from any subsequent legal and statutory regulations.

### ROHS

Optima Technology Associates, Inc. and Sahasra Electronics, declare, consistent with specific customer product requirements, production is RoHS compliant, conforming to the Directive (EU) 2015/863 amendment of the Directive 2011/65/EU.
